## **County of Maui providing Voluntary Post-Arrival Travel Testing Program**

Mayor Michael Victorino announced that the County of Maui is providing a free, voluntary post-arrival testing program for returning residents and visitors traveling into Maui County.

Travelers must have taken a pre-departure test to be eligible for the free post-arrival test. Travelers should take the second test 72 hours or later after they arrive into Maui County.

Minit Medical is administering the County sponsored program at testing sites in Central, South and West Maui. A mobile unit will also be visiting hotels around the island to provide quick and convenient testing.

Travelers must pre-register for the post-arrival test at [www.MinitMed.com](http://www.MinitMed.com). If you have any problems pre-registering, please call (808) 667-6161, ext. 7.

"We strongly encourage all our returning residents and visitors to take this free, second test, which only takes a bit of your time and helps protect yourself as well as our community," Mayor Victorino said. "We want to mahalo Minit Medical for partnering with us for this program and supporting our efforts to keep Maui County healthy."
